We should not post this any place where the public can see it until we have first provided courtesy notice to elected officials. They don't like surprises, and we don't like surprising them....

Found a typo – occurred is mis-spelled in the caption under the photo. Please revise and return.
Thanks.

BTW – Ben has confirmed with Doug Clemmons that we can list the CAG web link in the publication. And Doug is very happy about EPA doing the publication.

Here is the updated version, with today's date. Please send feedback or forward to the powers that be for approval.

We still need to solidify a bit of the workflow based on our earlier conversation. We can post this today on Scribd (and hopefully the .gov). After that, links along with crafted messages can be sent out to our distribution lists (GovDelivery/Email) and social media.
